- Compact consumer electronics design
- Stands horizontally or vertically

QuickView Expander

100 HOURS[†] 185 HOURS[†]

Digital video recorders (DVRs) are revolutionizing the way people watch television, offering unprecedented control over how and when you watch. DVRs are so useful that users can quickly fill them up saving programs from a weekend movie marathon

or Super Bowl extravaganza. The Maxtor QuickView Expander™ external hard drive instantly adds more recording hours to your DVR or set-top box by attaching to your already installed DVR*.

The QuickView Expander external hard drive provides up to 100 hours of high-speed storage for set-top boxes equipped with external Serial ATA ports. The drive takes advantage of the Maxtor QuickView storage technology that powers most of today's DVRs. Maxtor QuickView hard drives are designed for streaming media applications and offer exceptional performance and advanced features that enhance the digital entertainment experience.

How does it work?

The QuickView Expander external hard drive attaches to your DVR or set-top box. First, contact your service or cable provider to confirm availability in your area. Once you receive your new QuickView Expander external hard drive, simply plug the drive into a wall outlet and connect it to your DVR to prepare for the ultimate entertainment experience!

Specifications
